

2020 Construction Season Weekly Update

Date: September 18th, 2020

This is the last update of the 2020 Construction Season.

Project: Park Avenue Improvement Project (South Ave – Main Street)

This project began April 20th, 2020. The project included underground utility work, curb and gutter, street surface, and a shared use path. The intersection of Greenville St and Park Ave was eliminated with this project.

The roadway was opened on 7/24/2020 to traffic.

Project: Linden Street Improvement Project (Maple Street – Woodward Avenue)

The project began on May 11th, 2020 and was finished on June 15th, 2020. The project included minor underground utility work, curb and gutter, street surface, driveways, and sidewalk. Haas Sons, Inc was the prime contractor on the project.

Project: Elm Street Improvement Project (Perry Street – Wheaton Street)

The project began on June 8th, 2020. The project included underground utility work, curb and gutter, street surface, driveways, and sidewalk. Haas Sons, Inc was the prime contractor for the project.

Elm Street was opened to traffic on 8/3/2020. Minor punchlist items are all that remain to be completed.

Project: Huron Street Improvement Project (Elm Street – Macomber Street)

This project began on June 25th, 2020. The project includes underground utility work, curb and gutter, street surface, driveways, and sidewalk. Haas Sons, Inc is the prime contractor for the project.

The roadway was opened to traffic on 8/17/2020, with just minor punchlist items remaining to be completed.

Project: Pumphouse Road (Grady St to Scheidler Rd)

This project began the week of 7/13. The work was performed by the Chippewa Falls Street Department. This project includes removal of the existing asphalt roadway and repaving.

Pumphouse Road paving was completed on 9/16/2020 and then opened to traffic.

Project: Oak Street Storm Sewer Repair (Mansfield, Oak & Island St)

Due to heavy rains causing erosion on the hillside an emergency contract was executed for repair of the storm sewer in the unopened section of Oak Street right of way between Island Street and Mansfield Street. This project is now completed and slopes restored.

Project: Chapman Street Watermain project (Wisconsin to A St)

Due to a leaking 2-inch private main an emergency contract was executed for the replacement of the water main with a public 6-inch water main. Haas Sons, Inc is the contractor for this project. The project began on 8/12/2020. The asphalt driveways and patches are all that remain to be completed along with some additional ditch grading.
